

Why you should attend

These workshops follow on from the success of last year's events, providing updates on the management of barley, wheat and oilseed rape. HGCA work closely with SAC on research for cereals and oilseed rape growers and these jointly hosted workshops ensure that the results are delivered in a timely and cost-effective manner.

Experts will discuss what's new for 2010, covering all aspects of agronomy from soil management and variety choice to the management of weeds and diseases. Changes in legislation and climate bring with them new problems and opportunities. These workshops will also look ahead to discuss these new topical issues and to identify new priorities.

Specialist speakers will include:

Julian Bell, Economist (SAC)

Hugh Broad, Grower (PN Broad & Son)

Jim Booth, Project Manager (SAOS)

Peter Cook, Independent Consultant (P & L Cook and Partners)

Steve Hoad, Cereals Specialist (SAC)

Elaine Booth, Oilseeds Specialist (SAC)

Ian Bingham, Plant Physiologist (SAC)

Simon Oxley, Plant Pathologist (SAC)

Fiona Burnett, Plant Pathologist (SAC)

Mark Ballingall, Weed Consultant (SAC)

Ken Davies, Weed Specialist (SAC)

Bruce Ball, Soil Scientist (SAC)

Bob Rees, Soil Scientist (SAC)

Programme

Combinable crops for 2010 and beyond

The format of these workshops has been altered from previous years, combining the RERAD and HGCA funded sessions.

09:15	Registration and refreshments
09:35	Chairman's welcome

DATA PROTECTION: By completing this form you agree to your details being held electronically on the HGCA database and utilised by us to keep you informed about events and publications. Your data will not be passed on to any third parties. If you do not wish to receive further information, please tick this box.

Following on from the success of last year's events, these workshops will give you the opportunity to:

- Access the latest market information
- Hear the outcomes from the HGCA Arable Monitor Farms
- Explore crop management options and learn about the latest varieties of cereals and oilseeds
- Discuss the latest independent results from HGCA and Scottish Government (RERAD) funded research
- Meet with specialists who will be on-hand to give advice on your crop protection strategies

HGCA / MAGB Malting Barley Workshop

Kirknewton, Edinburgh
Thursday 11th February 2010

This workshop, held in association with MAGB, will include a market outlook paper and a discussion on maltster requirements, as well as regionally tailored results from the latest HGCA funded research.

For further information on this or any other HGCA events, please call: 024 7647 8726, email events@hgca.com or visit www.hgca.com/events
